

I-BEST

Computer Assisted Design

With I-BEST CAD, students will learn the basics of computer-assisted architectural design, including the exciting environmental applications, leading to employment as an Architectural Drafter Aide or earn priority registration into our Architectural Engineering Design certificate and degree programs. CAD I-BEST is eligible for Federal Financial Aid, and many students qualify for funding.

The Computer Assisted Design program takes 3 quarters to complete.

CAD Employment & Wage Earnings

Employment Options: Architectural Drafter Aides assist in the preparation of detailed drawings of buildings and maps for use by architects and civil engineers in the construction of homes, highways, bridges and public works.

Wage Earnings:

Architectural Drafter Aides average \$25.90/hour**

Architectural and Civil Drafters average \$31.10/hour*

What is I-BEST?

I-BEST gives adult education students access to technical programs by combining basic skills or High School Equivalency (formerly GED®) with career preparation. I-BEST offers a team approach that supports student development.

I-Best is perfect for students who...

- are first-timers in college
- are returning to school after long absences
- Want to combine ABE classes with technical training
- have attained GED® or high school completion, but appreciate additional support in the classroom
- are adult language learners
- want to succeed in college

New Cohort Starts Soon.
